Our new Promo500 introduces a tasty new mega-treat, choc-full of family favourites, plus there's a few engineers' favourite freebies to keep you warm over the cold Winter months.

With everything from classic Buttons to chocolate fingers, the Cadbury Favourites Selection Box is a massive 370g of iconic chocolate treats, perfect for Christmas, or indulging at any time.

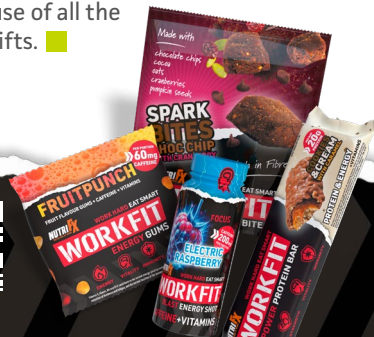

The popular Greenmill Americano Travel Mug is back, looking smarter than ever, with a sleek matt black finish and soft-touch sleeve to protect your hands.

It wouldn't be a Winter Promo500 without the legendary, super-snug Greenmill Snood. Whether you wear it as a scarf, beanie or under-hat hood, the legendary Greenmill snood is guaranteed to keep you warm and toasty on site.

Obviously, there's a Border Biscuit Classic Sharing pack. There's pretty much always a Border Biscuit pack, because everyone tells us how much you love them. And, if you're one of the few UK engineers that hasn't got a Störnch 3-in-1 Safety Knife yet, it's still available on our Winter Promo500. We just didn't have room to show it because of all the other great gifts. ■
